- Lung problems
- Other

What is Quantum Healing?

Quantum Healing Hypnosis TechniqueSM (QHHT[®]), involves inducing an individual into the Somnambulistic state of trance through visualisation.

A state which under ordinary circumstances is experienced only twice daily: the moment just before you become consciously awake and the moment just before you fall asleep.

Why experience Quantum Healing?

The layers of you are interconnected with no separation. Arthur provides a safe service that enables your physical and non-physical ailments to be explored and healed safely where appropriate.
